HOW AIRTILITY WORKS

- We design a custom system that will work with maximum efficiency for your business.
- We provide state-of-the-art equipment with the most efficient control systems in the industry.
- We provide ongoing monitoring, reporting and trends, and make the necessary changes to optimize your systems performance in order to boost your production's profitability.
- We guarantee the supply of compressed air according to the needs of your site; no matter whether your installation is large or small, we have the system that will meet your expectations.
- System costs are established in advance for a predetermined time established by the customer.

BENEFITS FOR YOUR BUSINESS

- **NO CAPITAL INVESTMENT RELATED** to the purchase of a compressed system including compressor, filter, tank and dryer.
- No engineering investment for the development of a system tailored to your business.
- Improved cost predictability and no variable maintenance costs.
- No disposal cost of consumables.
- No purchasing & Stocking spare parts & lubricant.
- Helps prevent costly down time.
- Eliminates inefficient equipment.
- Eliminates air quality issues.
- Reduce administrative and management costs.
- Opportunity to reduce electricity costs.
- Allows you to schedule your maintenance staff to more important tasks.

Having more than 40 plus years of experience in the compressed air market, Comairco, has the product inventory, expertise and service team to deliver **reliable** compressed air at the **lowest** overall cost.
