SERVICE PARTS SUPPORT REPAIR MODERNIZATION

SPECIALIZED SERVICES

SUPPORT

AUDIT :

The audits review each component of the compressed air system to identify ways to maximize efficiency by reducing air loss, reducing energy consumption and optimizing usage. Audits provide the most accurate data possible on current conditions. They identify opportunities for component upgrades and ensure that the entire system works as it should.

AIR LEAKS:

We offer the detection, identification and repair of leaks.

TRAINING:

We offer service training seminars on or off site for managers, users and maintenance managers.

AIR NETWORKS:

Our team specializes in air network installation. We can design and install a custom system, according to your needs.

WARRANTY:

Proud of its experience and expertise, Comairco offers different warranty plans for repaired components and remanufactured equipment.

REPAIR

AIR END:

Comairco is an industrial equipment supplier offering different services, including repairing and reconditioning the air end for any type of compressor.

REMANUFACTURED COMPRESSOR:

Comairco has the expertise to refurbish any type of compressor, either during an acquisition or to meet the request of a client. Our specialized technicians and our workshops allow for a like-new reconstruction. The process includes an assessment, dismantling, tune-up and cleaning, an update of the major components and a performance evaluation.

MODERNIZATION

UPDATE OF CONTROLS:

The control panels have been modernized in recent years. More than just accessories, they are now performance tools critical to the equipment.

On the lookout for all these innovations, our technicians have a deep knowledge of compressed air equipment and are able to provide and perform an upgrade, as well as replace and repair any type of control panel, for any type of compressor or air dryer.

Controlling a complex system can be a challenge. A master control panel can effectively manage your system, even with different types of compressors of different sizes.

PARTNERSHIP WITH THE INDUSTRY LEADERS

HITACHI

OUR PROACTIVE MAINTENANCE

Comairco offers preventive maintenance plans to minimize costly unplanned downtime, maximize efficiency and the reliability of your compressed air production and meet manufacturers' maintenance requirements.

SERVICE AVAILABILITY 24/7,

Comairco offers on-site repair service, available 24 hours a day, 7 days a week. Our qualified technicians are available day and night to perform maintenance or repairs on your compressed air equipment.

ORIGINAL EQUIPMENT MANUFACTURED PARTS

Comairco has one of the largest inventories of original equipment manufacturer parts in North America. We make sure to have on hand the right parts required to maintain your compressed air equipment.

CERTIFIED TECHNICIANS

Comairco has a mobile team of over 65 technicians on the road at all time, several planners, technical advisers and Service Directors. All our staff is regularly trained by our different suppliers.

- Energy efficient
- Supported by suppliers
- Maximized production effectiveness
- Repair cost reduction
- Complete maintenance log
- Better cost predictability
- Inventory cost reduction
- Swiftess
- Availability
- Efficiency
- Peace of mind
- Support and prompt production restart
- Production loss reduction

- Reliable performance
- Compliance with manufacturer's requirements
- Superior components' lifetime
- Air quality
- Increased equipment longevity
- Professional partner
- Certified skills
- Peace of mind
- Diagnostic cost reduction
- Manufacturer's support
- Superior technical support
- Product specific knowledge

RENTAL EQUIPMENT FLEET

Comairco has a large equipment inventory available for rent. Including diesel and electric units, accessories and complete solutions for any type of industry.

PREDICTIVE ANALYSIS

Comairco provides predictive monitoring services such as oil analysis, vibration analysis and audit as well as real time readings. Our engineering department interprets data and makes appropriate recommendations.

NATIONAL COVERAGE

Comairco has 23 locations in Canada and the USA. This coverage makes it possible to share our knowledge on your different facilities and create an efficient synergy.

PARTNERSHIP WITH THE INDUSTRY LEADERS

Comairco is the exclusive distributor of many world renowned product lines of the compressed air industry. We offer products using the latest innovations.

- Minimizes unplanned stops
- Integrated and customized solution
- Flexibility
- Availability
- Best predictability of costs

- Maximized operational efficiency
- Reduction costs repair and stop
- Best predictability of costs

- Local operational support
- Availability
- Reduced Cost transaction
- National synergy of the service offer
- Standard of quality

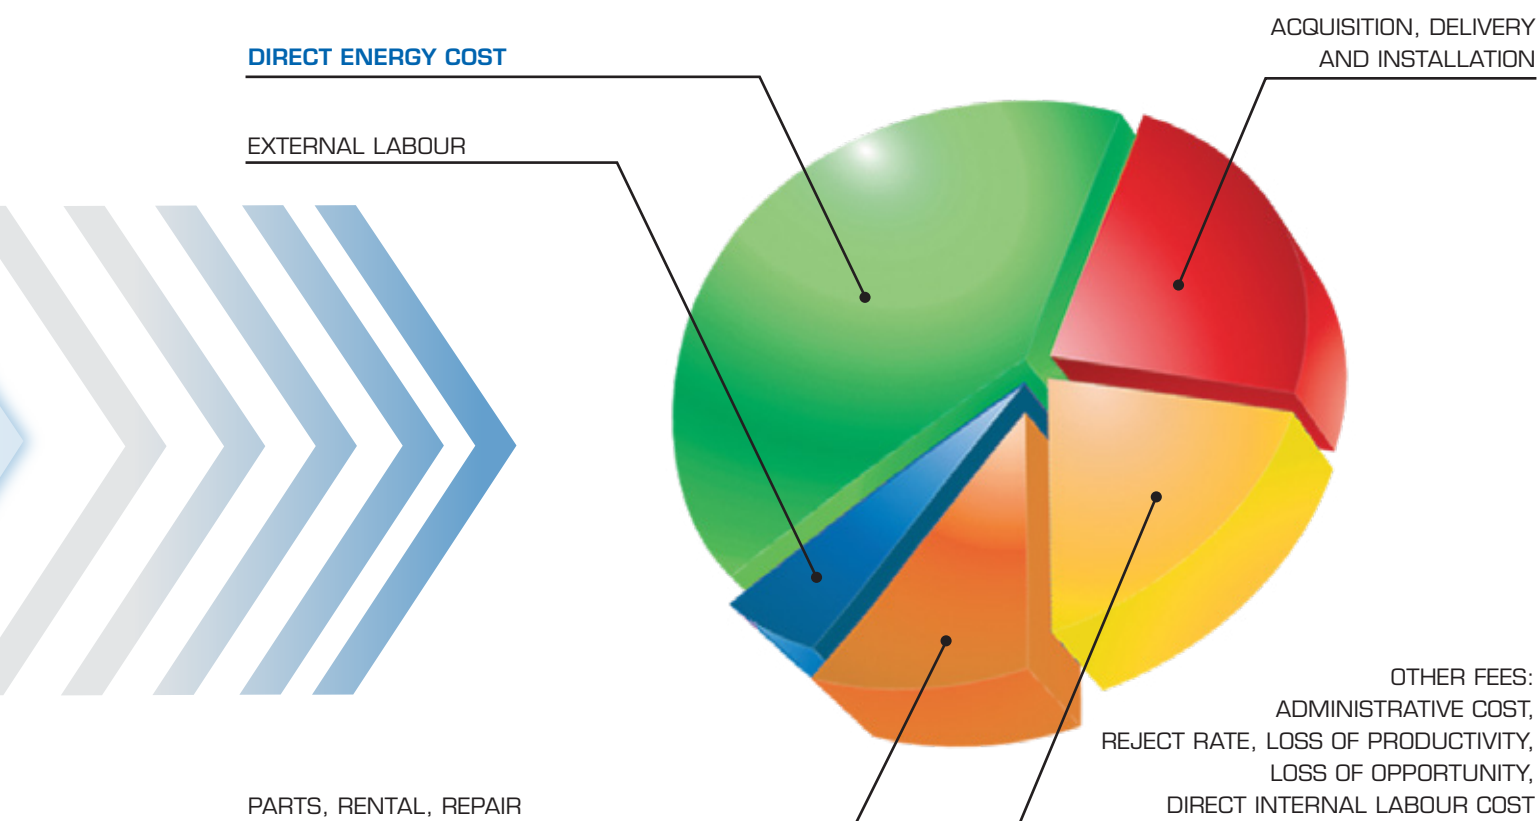

- After Sales support of the manufacturer
- Expertise
- History
- Competitive Agreements
- Quality
- Partnership
