ELECTRIC COMPRESSORS | SCREW
PORTABLE COMPRESSORS | SCREW

ST SERIES

The ShopTek compressor. Compressor with a 5-to-20 hp belt drive (16 to 78 cfm). Available with dryer and tank mounted.

ES SERIES

The Encapsulated compressor. Product range going from 5 to 10 hp (17 to 36 cfm). Available with dryer and tank mounted.

S-ENERGY

Sullair's Premium Single Stage Compressor, 15 to 100 hp (60 to 500 cfm). Standard control mode, variable capacity, variable speed.

LS SERIES | SINGLE STAGE

Sullair's Rock-Solid Lubricated Screw Compressor, 125 to 350 hp (587 to 1,615 cfm). Standard control mode, variable capacity, variable speed.

TS SERIES | TWO STAGE

Sullair's Tandem Series – the Industry Leader, 100 to 600 hp (500 to 3,000 cfm). Standard control mode, variable capacity, variable speed.

VS SERIES | VACUUM PUMP

Sullair Vacuum Screws. 5 to 200 hp (78 to 3,095 cfm). Reliable, quiet, operation without pulsation and energy efficient. Available with soundproof cabinet.

PORTABLE COMPRESSORS

Sullair diesel series. 125 to 1,900 cfm. Pressure from 100 to 500 psi. Dual pressure units (350 psi/500 psi) available, as well as aftercooled and filtered air for instrument air quality.

«INDUSTRY'S
BEST AIR
QUALITY»

FILTRATION

Low pressure loss, help saving energy and guaranteed performance. Oil-free air quality, guaranteed.

FLOW CONTROLLERS

Pressure stabilization. Accuracy to within +/- 1 psi.

REFRIGERATED DRYERS, OR DESICCANT DRYERS WITH OPTIONS FOR HEATED PURGE, HEATED BLOWER PURGE, AND/OR VACUUM PURGE MODELS.

5 to 7500 cfm, with a dew point of -40 °F to -100 °F.

200 to 10,000 cfm, with heat or vacuum – for substantial energy savings.

NITROGEN GENERATORS

19 to 5225 SCFH and purity ranging from 95 to 99.9999%.

Membrane and PSA styles in modular or twin-tower designs.

Also several options available.

VAN AIR

DIESEL, GASOLINE, HYDRAULIC, PTO

For installation on a vehicle.

Optional generators and welders or

PTO and battery chargers on select models.

VACUUM PUMPS

Vane vacuum pumps with or without oil from 2 to 710 cfm.

Liquid ring vacuum pump from 6 to 2000 cfm.

HITACHI

OIL FREE SCREW COMPRESSOR

30 to 600 hp (variable speed available).

SCROLL COMPRESSORS

Silent by design, 2 to 50 hp.

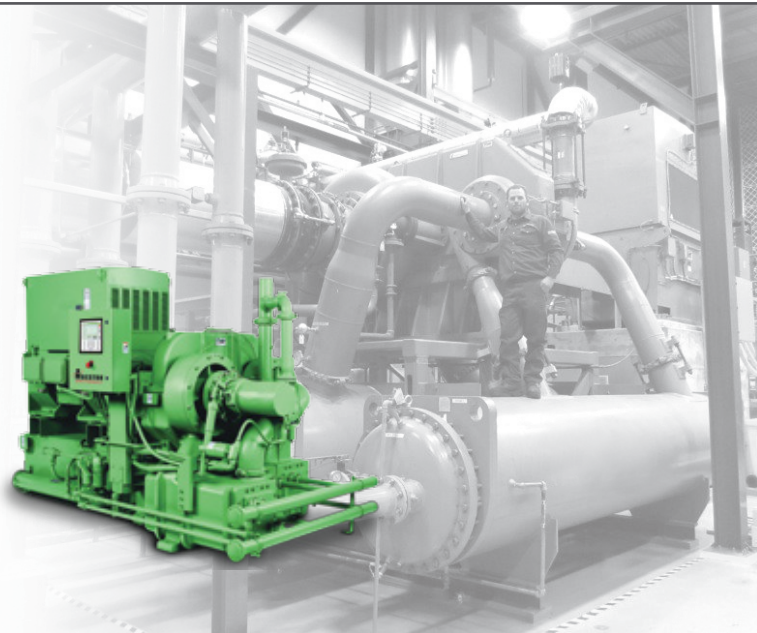

AIR-COOLED CENTRIFUGAL COMPRESSORS

550 to 1700 cfm.

WATER-COOLED CENTRIFUGAL COMPRESSORS

505 to 15000 cfm

We offer the ultra-efficient Heat-of-Compression dryers to couple with our oil-free screw and centrifugal compressor lines.

« A COMPLETELY MOBILE AND CUSTOMIZABLE AIR COMPRESSOR ROOM »

AWA COMPRESSED AIR MOBILE STATION

- Tested in environments ranging from -40 °F to -120 °F.
- Maximizes the efficiency of your electric air compressor outside.
- Industrial sound and thermal insulation.
- 120 VAC service outlet.
- Remote control system.
- Access suitable for maintenance.
- Comairco remote control monitoring.

COMAIRCO DISTINGUISHES ITSELF WITH:

CONSULTING

The Comairco team is able to help you design a complete state-of-the-art compressed air system that is efficient and specific to your demand profile...

EQUIPMENT RENTALS

Comairco also offers an impressive equipment inventory for rental. At all times, whether you need high pressure or low pressure, diesel or electric compressors, or even air treatment to meet an oil-free requirement, we stand ready to serve you.

ENERGY COST ANALYSIS

- Energy consumption study
- Compressed Air leakage study
- Proven energy savings average 30% after analysis
- We can help you take advantage of Government & Utility Company Efficiency Programs offering financial incentives for your compressed air system upgrades.

24/7 SERVICES

Service technicians trained and certified by the equipment manufacturers.

- Preventive maintenance programs with flexible service agreements.
- A qualified team to analyze your compressed air needs, giving you expert care and peace of mind.
- We provide Technical support from the conception to the completion of your projects.

AIR NETWORK INSTALLATION

Customized creation and installation of your compressed air network to your production equipment. For small, medium or large projects, Comairco has a piping solution that surpasses requirements and offers a safe, sustainable, efficient and reliable system – along with a Quality Plan registered with your regulatory authorities to protect your investment.

PARTS IN INVENTORY

- High quality original (OEM) parts.
- Fast delivery.
- A Complete range of lubricants specifically designed for compressed air.
